SUMMARY

A graduate of Telecommunication Engineering from Telkom University Purwokerto with a strong foundation in telecommunication systems, network infrastructure, and wireless communication. Skilled in analyzing, designing, and implementing telecommunication networks and systems. Eager to apply knowledge and technical expertise in solving real-world challenges within the telecommunication industry. Demonstrates strong problem-solving skills, teamwork, and adaptability to new technologies.

WORK EXPERIENCE

GraPARI Telkomsel Purwokerto

Jan 2020- Mar 2020

- Assisted in the installation, maintenance, and troubleshooting of telecommunication systems for Indihome customers, ensuring high-quality service delivery.
- Conducted on-site inspections to identify issues with broadband connections, providing timely resolutions and enhancing customer satisfaction.
- Collaborated with senior technicians to manage network performance, performing diagnostics and optimizing service quality.
- Gained hands-on experience with fiber optics, routers, modems, and other network infrastructure components.
- Provided technical support and guidance to customers regarding internet setup, usage, and troubleshooting procedures.

PT Ozami Inti Sinergi

Feb 2024 - Jun 2024

- Assisted in scheduling and managing closing events for bootcamp advertisements on Indobot and Mysertifikat platforms. Gained experience in managing schedules for a month ahead, writing emails using the Kirim.email app, and learning email editing techniques. Acquired knowledge of digital marketing strategies, including social media usage.
- Responsible for writing SEO-optimized articles for Indobot and Mysertifikat websites. Developed skills in SEO techniques to increase website visibility and rankings. Crafted informative, engaging, and relevant content tailored to the target audience.
- Led the design and creation of an IoT-based automatic irrigation system as part of the final project. Gained valuable experience in integrating IoT technology into irrigation systems, learning about IoT principles, including sensors, actuators, and data communication. Acquired hands-on skills in hardware and software design to create an effective and efficient system, with practical applications in the agricultural sector. Developed programming, data processing, and technical troubleshooting skills, enhancing career readiness in technology and engineering.

EDUCATION

Bachelor of Telecommunications Engineering

Sep 2021 - Aug 2025

- Telkom University Purwokerto
- Thesis on "Measurement of River Bed Contour Using Linear Movement Method".

Computer Network Engineering

Jul 2018 - Jun 2021

- Telkom Vocational School Purwokerto
- Relevant coursework in Networking, IT Infrastructure, and Systems Management.

ADDITIONAL INFORMATION

Technical Skills:

- Design and management of telecommunication networks
- Configuration and maintenance of computer network systems
- Programming and software development for network systems
- Installation and maintenance of computer hardware and networks
- Proficiency with network devices such as routers, switches, and firewalls
- Implementation and maintenance of fiber optic-based telecommunication systems
- Network traffic management and analysis
- Cybersecurity and data protection in networks
- Troubleshooting of communication and network systems
- Use of CAD tools and software for designing telecommunication and network systems

Certifications:

- CCNAv7: Switching, Routing, and Wireless Essentials
- Industrial Work Practice (intern)
